

STEP Ultrasound Certificate Program

Designed *by* physiatrists, *for* physiatrists, the STEP Ultrasound Certificate Program is a popular multi-tiered training program that teaches and assesses musculoskeletal and neurologic ultrasound skills using a progressive, competency-based curriculum. Participants move through a series of 3 steps in diagnostic and interventional ultrasound, completing each component through a combination of learning formats. Participants who complete all of the required steps will earn a Certificate of Completion.

STEP

skills | training | evaluation | performance

STEP 1

Step 1: Fundamentals

1. Online Pre-test
2. Online Fundamentals Precourse lectures
3. Live Step One Course Ultrasound Course (November 14-16, 2023)
4. Online Post-test

STEP 2

Step 2: Interventional

1. Online Interval Pre-test
2. Online Curriculum
3. Live Next Step Interventional Course (March 10-11, 2023)
4. Online Interval Post-test

STEP 3

Step 3: Assessment and Certificate

1. Online Final Post-test with 50 questions
2. One-on-one hands-on skills assessment (Offered at the 2023 Annual Assembly)

Dates are subject to change.

“The skills that the STEP program taught really encapsulated the full experience of a general physiatrist.”

– STEP Ultrasound Certificate Program Graduate

“We were able to take the broad applications we learned in this course and implement them immediately in our practice to help our patients.”

– STEP Ultrasound Certificate Program Graduate
