

#AAPMR VOLUNTEERS ARE LEADING THE WAY

Leading the Way is more than our theme for this year's Annual Assembly, it's our philosophy. PM&R physicians are BOLDLY leading in so many ways. From leading Long COVID rehabilitation to cancer rehabilitation, musculoskeletal care, pain management, pediatric rehabilitation, spine rehabilitation, across the entire rehabilitation care continuum and more; YOU are making a difference in healthcare.

Join your PM&R peers who are contributing their time and expertise to support the mission, vision and core values of the Academy.

Volunteer today at aapmr.org/volunteer and add your name to Team Physiatry's roster.

Visit the
Volunteer Wall near
the Member Resource
Center to see the many
faces of physical
medicine and
rehabilitation!
