	220	ASRA Pain Medicine unites professional experts and emerging professionals across pain medicinefrom anesthesiology and physiatry to neurology, psychiatry, and beyond. As a member community, we investigate, educate, and innovate to help patients seeking effective pain management. Our community represents and advances the entire continuum of pain medicine and therapeutic modalities, from acute pain care, perioperative pain care, chronic pain reatment, interventional management, neuromodulation, medication management, minimally invasive techniques, peripheral and spinal cord stimulation, and more. By joining our network, you'll advance your integrated understanding of pain medicine and immerse yourself in the advanced, evidence-based expertise that helps to relieve	
ASRA Pain Medicine	339	and manage patient pain. The Association of Academic Physiatrists (AAP) is an intimate and influential professional society of today's and tomorrow's leaders in academic physiatry. We have members in 25 countries who are dedicated to mentorship, leadership and discovery. With a keen focus on research and education, the AAP's programs, events, communities and publications are creating the future of our specialty.	http://www.asra.com
Association of Academic Physiatrists	659	Physiatry '23, the AAP Annual Meeting, will be held in Anaheim, California, February 21-24, 2023. We hope you will join us!	http://www.physiatry.org

		As one of the nation's leading – and largest – rehabilitation providers, Atrium	
		Health Carolinas Rehabilitation delivers comprehensive, state-of-the-art care and	
		top outcomes. Recognized by U.S. News & World Report and Newsweek as a Best	
		Rehabilitation Hospital, Carolinas Rehabilitation offers a wide range of specialties in	
		condition-specific programs and services including Stroke, Brain Injury, Spinal Cord	
		Injury, Cancer, Amputation, Musculoskeletal and Pediatric Rehabilitation. Carolinas	
		Rehabilitation was the first rehabilitation hospital in the world to achieve CARF	
		accreditation in Cancer Rehabilitation and has the most CARF accredited programs	
		in the region. It was also the first rehabilitation hospital to receive the American	
		Hospital Association's Quest for Quality prize. We provide the largest Physiatry	
		practice in the Southeast and represent all major Physical Medicine and	
		Rehabilitation subspecialties. More than a decade ago, Carolinas Rehabilitation	
		created a quality database known as EQUADR SM , which has now become the

		Benefis Health System is one of Montana's largest tertiary centers holding a level	
		II Trauma designation. We are proud to be a standalone, financially stable	
		community health system with strong, dedicated leadership focused on providing the	
		best patient care in Montana, in addition to being awarded Becker's "Best Places To	
		Work in Healthcare" 6 years in a row. Benefis covers 1/4 of the state's land mass, an	
		area comparable in size to Kansas and can provide care for everything except for	
		burns and organ transplants. We offer great specialty support including 4	
		neurosurgeons, a cardiothoracic and vascular program, a regional cancer institute	
		and a brand-new emergency department with a dedicated air ambulance program,	
Benefis Health System	548	including fixed and rotor wing.	http://www.benefis.org
•		For more than 50 years, Brooks Rehabilitation, headquartered in Jacksonville, Fla.,	-
		has been a comprehensive source for physical rehabilitation services. As a nonprofit	
		organization, Brooks operates one of the nation's largest inpatient rehabilitation	
		hospitals in the U.S. with 160 beds, a second 60-bed inpatient hospital that opened	
		in April 2022, and a Center for Inpatient Rehabilitation in partnership with Halifax	
		Health in Daytona Beach, Fla.

		Alpha-Stim is a FDA-cleared, handheld, prescription medical device that can be	•
		used by patients in the comfort of their home, while doing everyday activities such	
		as watching TV, reading, working on a computer, or doing light housework. Earclips are worn for 20 minutes to an hour for mood and sleep, and pain is treated	
		with probes or electrodes. The brain functions electrochemically and can be readily	
		modified by electrical intervention. The Alpha-Stim AID utilizes cranial	
		electrotherapy stimulation (CES) to deliver the only patented waveform which is	
		clinically proven to significantly decrease anxiety and comorbid depression, along	
		with insomnia. The Alpha-Stim M uses CES to treat mood and sleep, plus	
		microcurrent electrical therapy (MET) to also treat acute, post-traumatic, and	
		chronic pain. Proven fast, safe and effective by more than 100 clinical trials over 42	
		years that prove the effectiveness of this low level electrical prescription brain

		The OPRA™ Implant System by Integrum is the only FDA approved bone anchored prosthetics solution on the market, indicated for transfemoral amputees. It allows for amputees to avoid socket related issues and increase the wear time and range of motion of their prosthesis. With increased proprioception, you can feel the ground under your feet and know where your limb is in space. Sitting is easy and comfortable, and the prosthesis can be attached or removed in just 10 seconds. Amputees report higher wear time, less pain and discomfort, and more confidence with a bone anchored implant vs. a traditional socket. Integrum has changed the	
Integrum Inc.	1028	lives of hundreds of amputees worldwide with this revolutionary technology. Ipsen is a global biopharmaceutical company focused on innovation and specialty care. Ipsen Biopharmaceuticals, Medical Affairs	731	please visit www.ipsenus.comdd. iTreatMD's universal documentation tools is specifically designed for clinicians visiting post acute care facilities to rapidly generate encounter notes and minimize the "busy work". We incorporate three major technologies to enable clinicians to generate encounter notes in under two minutes. We:	https://www.ipsenus.com

		1)Import and pull patient information from facility's EMR and present it on the encounter note so that clinicians have to simply review and select it, rather than retype it. This information includes meds, allergies, ICD10 codes, and vitals and is updated on a daily basis. We are fully integrated with several facility EMRs such as PointClickCare, Matrix Care, etc.	
		2)Provide an intuitive and easy to use app on mobile devices to generate encounter note so that clinicians can tap, talk, or type pertinent data rapidly.	
		3)Automatically upload encounter notes to facility EMR and generate a billing report for your biller.	
iTreatMD	627	These three steps enable our clinicians to generate notes in under two minutes. Deployed in over 500 facilities, our solution saves over 75% in documentation time and increases revenue by over 30% while providing the right level of patient care.	https://www.itreatmd.com/
		As Magee Rehabilitation Hospital and MossRehab have come together under the umbrella of Jefferson Health, we are introducing a new name for our rehabilitation programs and services: Jefferson Moss-Magee Rehabilitation. Jefferson Moss-Magee Rehabilitation includes our six inpatient locations and more than 40 outpatient rehab sites. Collectively, we are the largest and highest ranked provider of acute inpatient and outpatient physical and cognitive rehabilitation in the Philadelphia region. Notably, our two flagship inpatient locations in Elkins Park, PA and Center City Philadelphia, are both nationally ranked by U.S. News & World Report, with Elkins Park holding the highest rank in Pennsylvania.	
		Jefferson Moss-Magee Rehabilitation is designated as one of 16 federally funded Traumatic Brain Injury Model Systems of Care in the US. Along with Thomas Jefferson University Hospital, we are also nationally recognized program for spinal cord injury with a lifetime follow-up system of care. We offer the latest advances in

<u> </u>		Miner/Mason & Associates is the oldest medical search firm continuously	
		recruiting only doctors who specialize in PM&R.	
		Due to our longevity, focus, and dedication, we understand the rehabilitation arena	
		better than other recruiting firms. Our firm's greatest strength lies in finding the	
		individual that makes the best possible fit. After all, we're looking for a long-term	
		placement, not a short-term solution. That's how we've built our reputation and why	
		we have so much repeat business. What's our secret?	
		W 1 2 1F 4 3 W 11 F	
		We ask questions and listen to the answers. We get to know our clients AND	
		candidates. We understand the needs of both and work to find the right match.	
		Our 29 years has given us contacts within every training program in the country; and	
		allowed us to build the largest database covering a wide range of sub-specialties—	
		it now consists of over 12,000 physicians and 6,000 industry contacts – and it's	
		growing! Uprooting your personal and professional life is stressful. Our years of experience	
		help make the transition easier.	
Miner / Mason & Associates	430	morp make the transition easier.	http://www.minermason.com
	.50	The Mount Sinai Health System, in New York, provides a full range of both
